

Providence Neurology Services

The physicians within Providence Neurology Services offer a wealth of expertise in general neurology, as well as in specialized areas ranging from headaches and sleep disorders to neurological complications from cancer and neuromuscular complications in pregnancy.

Equipped with the latest diagnostic technologies, our neurologists work with referring physicians to diagnose and treat problems involving the brain, spinal cord and nervous system, including:

- Unexplained headaches
- Dizziness
- Persistent back and neck pain
- Memory loss
- Seizures
- Muscle weakness, numbness or tingling

Services

Providence neurologists treat the following conditions and diseases, among others:

- Alzheimer's disease and other causes of dementia
- Amyotrophic lateral sclerosis
- Brain and spinal cord injuries
- Brain tumors and disorders
- Children's neurological disorders
- Epilepsy
- Headache
- Head, neck and muscle pain
- Multiple sclerosis
- Parkinson's disease and other movement disorders
- Peripheral nerve disorders
- Stroke
- Other spinal disorders

Available on our Web site at www.providence.org/physicianinfo:

- **Physician directory:** Get contact information for all Providence Brain Institute physicians.
- **eNeuro:** Subscribe to our quarterly physician newsletter.
- **Clinical trials:** Find out about current clinical trials available to your patients through Providence. (This information also is available in each issue of eNeuro.)
- **Speakers bureau:** Providence Brain Institute physicians are available to speak about headaches and other topics related to neurological health.

OUR MISSION

As people of Providence,
we reveal God's love for all,
especially the poor and vulnerable,
through our compassionate service.

OUR CORE VALUES

Respect, Compassion, Justice,
Excellence, Stewardship
