

Providence Head and Neck Services

Providence Brain Institute is home to the only integrated endoscopic skull-base program in the Northwest, and is among the state's leading providers of cranial-based surgeries. Our team of fellowship-trained physicians provides compassionate, timely, evidence-based care. This includes minimally invasive approaches to the skull base and orbit, and the full spectrum of otolaryngologic care for the brain and associated structures.

To provide the best possible care for patients, we equip our team with the most up-to-date technologies, including:

- Intraoperative computerized surgical navigation
- Intraoperative MRI
- Intraoperative nerve monitoring

Services

- Endoscopic surgery of the skull base
- Open skull-base surgery using hidden incisions and minimal brain retraction
- Treatment of all head and neck masses and cancers
- Tumors of the parapharyngeal space, infratemporal fossa and pterygopalatine fossa
- Advanced thyroid and parathyroid surgery
- Endoscopic sinus surgery, including difficult revision cases
- Endoscopic tear duct surgery
- Facial paralysis rehabilitation
- Facial reconstructive surgery for skin cancer defects and scars
- Nasal airway surgery
- Sleep apnea treatment
- Treatment of pediatric diseases of the head and neck
- Full-service audiology
- Close coordination with patients' primary care physicians

Our multidisciplinary team of experts specializes in:

- | | |
|--------------------------------|---|
| ■ Sinus disease | ■ Neck masses |
| ■ Sinus tumors | ■ Thyroid masses |
| ■ Pituitary tumors | ■ Parathyroid disease |
| ■ Cancers of the head and neck | ■ Ear problems related to brain and skull pathology |
